

Year 1 Curriculum Map Autumn 1, 2019

This term's value is: Community

Key Information

PE:

Stowasser – Tuesday and Wednesday

Kahlo – Tuesday and Wednesday

Please ensure your child arrives dressed in their P.E. kit on Tuesday, bringing their school uniform in a bag.

On Wednesday, the children need to arrive in their school uniform and will return home in their P.E. kit.

Maths:

Place value- counting forward and back to 20 and beyond. Read and write numbers in numerals and words. Identifying one more or less. Ordering and comparing numbers to 20.

Addition and subtraction- Number bonds to 10. Missing number problems. Subtract numbers from 10.

2D Shape- recognise and name common 2D shapes and their properties in different orientations and sizes. Sort shapes according to their properties.

Multiplication- count in steps of 2 and 10.

Please see the Calculation Policy on the school's website for clarification on methods.

Help at home: We will often use 'Hit the Button' on line to help the children to quickly recall number bonds and multiplication facts. This is a great tool to use at home as well.

English – 'Send for a Superhero' and 'I Want My Hat Back'

In English this half term 'Send for a Superhero' is used to teach the children how to describe and compare characters using adjectives. Children will develop their questioning skills and they will produce their own narrative based on the book thinking about story order and using interesting adjectives.

Help at home: Try to find different word classes, whether it is an adjective or noun, and discuss how they are used to excite and engage us readers.

Year One Learning

Children learn best through play, exploration and discovery. The year one curriculum has a balance of challenging play opportunities and teacher led learning tasks which allows the teachers to encourage deeper thinking and for the children to develop essential skills.

Having the opportunity to learn through play, and using play as a base for challenge and exploration, we ensure that children are engaged, confident and excited about what they are doing.

Science: This term we will be developing our scientific vocabulary and starting to think about how seasons change, for example leaf colours. This will be ongoing throughout year 1 in order to compare.

Help at home: When on walks, comment on the environment and how it is changing as the months go on.

Forest school. Sally will be taking small groups of children to Peckham Rye over the year. Once a half term, Year 1 will be going to local areas to help enhance their geography and science skills.

PSHE: This half term we will be focusing on understanding more about our feelings and what they mean. We will also think about what makes a good friend.

Help at home: Please encourage positive relationships, celebrate when they have been a good friend or when someone has been a good friend to them.

Art and DT: The children will explore a wide range of techniques using colour, pattern, texture and shape to create superhero masks and take superhero portraits using a digital camera.

Help at home: Encourage creativity through different mediums such as found objects such as leaves, stones or recycled goods.

Geography: We will be studying the local area and using our map skills to create plans of our classroom, playground and the locality. We will learn how to use basic symbols as keys.

Help at home: Discussing the layout of your home. Encouraging your child to draw it out as a map using simple symbols. When walking around the local area, pointing out landmarks and local amenities.

Help at home- these are ideas you can do with your child at home. It would be fantastic for children to bring any home learning into school to share with the class. These are optional. Homework will be sent separately.
