

Did you know that all children at St John's and St Clement's are all entitled to free school meals?

You don't need to register your child for them to receive free school meals - just sign them up for their delicious lunches provided by Pabulum

We recognise the crucial role we play in shaping young people's development with healthy school meals.

We are proud to prepare nutritionally balanced dishes that bring fresh, locally sourced ingredients to the table.

Our menus have a rhythm that matches the seasons. They are designed to help children develop the confidence to try new dishes and understand the importance of eating a nutritionally balanced diet.

Pabulum really cares about where our food comes from. Here are some of the choices that we make to reduce our impact on the environment and protect our planet for the future.

We buy seasonal British fruit & vegetables which support the British economy

We hold the Food For Life accreditation in our Primary Schools. This means we serve fresh healthy food, which is environmentally sustainable, ethically sourced and champions local food producers.

Pabulum believes strongly in fresh food and that means using unprocessed, seasonal British produce that's locally sourced.

In our Primary schools, 94% of our dishes are prepared from fresh ingredients

Our eggs are all from free range British farms

All our meat is sourced from Red Tractor UK British farms - this means it is traceable from farm to fork.

We only buy from responsible fisheries, so that we know our fish is caught in a sustainable way
